DR. J. D. BUZZELL'S CELEBRATED FAMILY MEDICINE.

THESE Medicines are purely Vegetable, and extensively used in various parts of the United States, the British Provinces and the West Indies.

They are particularly intended for the removal of Chronic diseases, such as habitual or periodical Headache, Catarrh, Consumption of the lungs, various affections of the stomach, liver, bowels, kidneys, urinary vesicles, glands, &c. Dropsy, Rheumatism, Gout, and some of the preparations, viz: the Bilious Bitters, Pills, Jaundice Mixture, and anti-acid preparations. When generally used, their effect is opening obstructions, moving all morbid and offensive matter from the stomach and bowels, which he has reason to think is always their effect in all cases within the control of medicines. They operate as preventives in various epidemic diseases, such as Intermittent, Inflammatory, Bilious, and common Typhus fevers, Inflammations of the Lungs, Bronchitis, Pleurisy, Cholera Morbus, Diarrhoea, &c.; also as preventives to some contagious diseases, such as Yellow, Scarlet and Putrid fevers, and although there are some contagious diseases which they are not capable of preventing, such as small pox, measles, hooping cough, &c. yet he, from many years experience, has never known a case, in which those who contract any of those diseases, and who under the influence of these medicines, taken in such doses as to keep up and maintain a healthy action in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are easily managed--whereas, on the contrary, doubtless in many cases, they would prove not only distressing, but uncontrollable and dangerous.

Vegetable Bilious Bitters. Prepared exclusively at his Dispensary in Cape Elizabeth, near Portland, Me. These Bitters are particularly serviceable in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a loss of appetite.

Vegetable Bilious Pills. These Pills are intended to remove all Bilious Obstructions, regulate the Secretions of the Stomach, Liver, Bowels and Kidneys, and to restore a healthy action in the digestive organs, by removing all unhealthy matter from the elementary canals.

Jaundice Mixture. This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper tone, or have become torpid, attended with obstruction of the liver. It is also an efficacious remedy in chronic affections of the liver, and the accompanying medicines are to be strictly observed.

Hemorrhoidal, or Pile Powder. This medicine may be relied upon to give immediate relief; and their use persevered in, will effect a certain cure.

Compound Strengthening Plaster. A local weakness, or a pain in the chest, stomach, side, or back, will, in most cases, be removed by the application of this plaster to the part affected.

Ointment for the Cure of Cutaneous Eruptions. A few sparing applications of this ointment, morning and evening, will be found a safe and efficacious remedy in all cutaneous eruptions. It is a remedy for eruptions of the face, with which children are so often afflicted, and of the head, in which state it is covered with a continuous scab, it is a safe application, effecting a cure. It will generally cure that troublesome and truly perplexing humor, called by many the Barber's or Jackson Itch; observing in all cases, to take the ANTI-ERUPTIVE and COOLING POWDER, according to its accompanying directions.

Cough Mixture. A remedy for all coughs proceeding from colds, asthma, chronic catarrhs, consumption, influenza, and inflammation of the lungs or pleura. It is also found very useful in ameliorating the violence of whooping cough.

For a more full and particular description of disease, and the medicine to be applied, I beg leave to refer you to my Circular, in pamphlet form, which may be found wherever the medicines are for sale, and to the remarks accompanying them.

Fraternal Love.

You have brothers and sisters. Let your first endeavor be so to display the love which you owe your fellow-creatures, as to offer an example of incipient excellence by first honoring your parents, and next by offices of tenderness and goodness towards those with whom you are bound in ties of fraternity. In the sweet communion of the Divine science of charity towards all mankind, it is necessary to take early lessons in the bosom of your own families. What a charm is their not, for a good and amiable mind, in the thought that we are children of the same

mother! What a charm, we repeat, in finding, almost as we hail the light of heaven, the same common objects to venerate and to love! Identity of blood, and the resemblance of many customs between brothers and sisters, naturally excites a powerful sympathy, which can only be destroyed by the calamitous indulgence of the most horrible and cruel egotism.

If you wish to be a good brother, beware of excessive egotism; each day propose to yourself to exercise generosity in your fraternal relations. Let each of your brothers and your sisters perceive that their interests are as dearly appreciated by you as your own.

If one of them is in fault, be indulgent, not merely as you would be to another but to a second self. Take delight in beholding their expanding virtues, encourage them by your example, give them reason to bless their lot in having you for a brother.

Infinitely numerous are the motives to reciprocal love, compassion, and common participation in the young joys and sorrows of life which continually combine to keep alive and to foster fraternal love. Still it is necessary that we should reflect on all these, or otherwise they may escape our attention, and we must practice self-denial in order to feel them as we ought.

Beautiful and delicate sentiments are not to be acquired except by the exercise of assiduous and resolute will. In the same manner as no one can attain to a correct knowledge of poetry or painting without study, so no one comprehends the excellence of fraternal love, or any other elevated sentiments, without a determined will to understand it. Do not let the habits of domestic intimacy make you forgetful of the courtesy and kindness due to a brother.

Still greater gentleness is called for towards your sisters. Their sex is endowed with a winning charm and grace of manner; and in well conducted families they generally make use of these amiable gifts to preserve peace throughout the entire household, to banish all passions from its precincts, and to soften down the effects of paternal or maternal animadversions which they may sometimes hear.

Honor in such sisters the amiableness of woman's virtues; rejoice in the influence they possess to soothe and to beguile your mind. And inasmuch as nature has formed them weaker and more sensitive than yourself, be so far more attentive to yield them under affliction all the consolation you can, in giving them no cause of suffering from yourself, and invariably showing them that respect and love so dear to the sister's and the woman's heart.

WEDNESDAY, AUGUST 16, 1843.

FOR PRESIDENT,

HENRY CLAY,
OF KENTUCKY.

FOR GOVERNOR,

EDWARD ROBINSON,
OF THOMASTON.Washington, Hancock and Aroostook
Congressional Convention.

DELEGATES from the several towns and plantations in the Congressional District of Washington, Hancock and Aroostook Counties, are requested to assemble in Convention at Cherryfield, on WEDNESDAY, the twenty-third day of August next, at 10 o'clock A. M. for the following purposes: To nominate a candidate for election as Representative to the next Congress; to choose a Delegate to the Whig National Convention for the nomination of President and Vice President; and to transact any other business that may come before them.

By order of the District Committee.

July 19, 1843.

The basis of representation in the Convention aforesaid, will be as follows: every town or plantation one delegate each; towns having one hundred voters, two, two hundred voters, four; and one delegate for every additional hundred voters.

SEE FIRST PAGE.

The Whig Convention

For the nomination of Representative to Congress, Senators and County officers, will be held on this day at Levant. We trust that all, who can make it convenient to attend, will do so and thus encourage those whose duty it is to be there, as delegates.

The Liberty Party and Slavery.

No. 2 of the "Expositor" made its appearance upon our table on Monday. The first sentence of the first article in the number reads as follows:

"The Liberty party is the only party on which our Representatives can rely for support in their conflict with the slave power in Congress."

This paragraph probably may be taken as a specimen of the whole sheet, as it is about of a piece with other statements made in the prints of the Liberty party. To say nothing of the poor reliance which "our representatives" have in their conflict, if the paragraph is true, we would ask the Liberty folks what "representatives" they refer to who are engaged in the conflict spoken of? Where is the representative who has been chosen by Liberty party votes? We have heard of several whigs, who, if elected, would have gone against Slavery, being defeated by such votes, but of none being elected by them. Whose votes elected and supported by triumphant majorities such men as Adams, Giddings, Slade and Fessenden and many others, who as whigs have done noble battle for the common cause of sound whig principles and universal liberty? How perfectly ridiculous the proposition contained in the above extract when the fact is continually staring them in the face that the "slave power in Congress" has for years past met with the severest opposition in both Houses, and the most energetic and active leaders in that opposition have been not only elected but supported throughout by whig votes. And still further, the great leader of that opposition, he whom the party now vainly strive to monopolize as a Liberty party man, even John Quincy Adams, after he had received the nomination of the Whigs in his district three years ago, was, if we recollect aright, not only at first not considered as the Liberty party candidate, but serious doubts were for a while entertained by the party as to nominating him at all. The assumption of the Liberty party papers is most amusing. While they are continually during the sessions of Congress publishing accounts of the noble resistance which the "slave power" receives from able hands there, a resistance which always finds the Northern Whigs to a man almost, true to the great cause of freedom, yet they can unblushingly print and reprint from week to week, statements of the kind cited, when they know the fact that no one member of Congress holds his seat by virtue of the votes of the Liberty party. We do not deny that in some instances they have given their votes to individuals supported by the whig party, but the opposition spoken of is none other, and regarded as none other than true whig, the same power which on all other occasions is found in support of true whig principles.

Frederick Hall, M. D., L. L. D., of Washington, died at Peru, Illinois, on the 28th ult, aged 64. Dr. Hall has been known for many years throughout our country, as one of our most eminent and successful chemists, mineralogists and geologists. He was formerly Professor of Natural Philosophy in Middlebury College, afterwards President of Mt. Hope College, and at the time of his death was Professor of Chemistry in the medical department of Columbia College. A few years since he contributed \$5000 towards endowing a professorship at Dartmouth College, his alma mater, and also gave them an extensive cabinet of minerals valued at \$5000 more.

We have received a Catalogue of the officers and students of the "Pecunian Society" of Bowdoin College, from its institution in 1805 to the present time, embracing also a list of the orators and poets who have performed parts at the several anniversaries and annual meetings, from its first organization. The residence of each member at the present time, or at the time of his death where this has occurred, is also given, and the time of graduating and of the election of the Honorary members. From the summary it seems the number of initiated members has been 630, honorary members 30, college society now 67. The work must be of much interest, especially to the "Pine tree" boys.

An exchange paper gives the following out at the prevailing fashion of attempting to cheat the printer of his proper fee. We recommend its perusal to all to whom it applies.

"We have received through the Post Office a pamphlet giving a description of the course of study, &c., at a very excellent school in Massachusetts. A more specific notice would answer the purpose of an advertisement, and an advertisement is a thing that we cannot afford to insert for a flourishing private establishment for nothing."

Editorial J. Correspondence.

To our Chair.—

As it has become quite a matter of fashion for editors to travel and equally a matter of course for traveling editors to print the result of their observations, we, though yet scarce a week old in our editorial life, but old enough not withstanding "to go alone," even we, who scarcely ever venture farther off than Market Square, or the Bangor House, have become at once a traveler, and now as in duty bound have set down to give you the *way-side impressions* of our journey. Having occasion to go into the country we on Monday took a jaunt into the good town of Exeter in our own County. It is well to take such a ride now and then, if for no other purpose than to acquaint one's self with what the country contains, the enterprising character of the citizens and all the other *et cetera* of a country life. Our ride led us through the thriving town of Levant, where we saw going on a goodly degree of enterprise in manufacturing and agricultural matters, with the appearance of much activity in both. Leaving Levant, we next came to Cornish and Exeter, and here we think we hazard nothing in saying that no towns in the State, or even in New England, unless in the Connecticut valley, can vie with or excel these towns and especially the latter in agricultural wealth. To see the beauties of the towns as they are now exhibited every where along the road, in rich landscapes and beautiful views, in heavily laden fields of grain and other productions, promising a bountiful harvest, in extensive and well burdened orchards foreboding an abundance of the richest fruit, and last though not least, in the numerous neat and beautiful dwellings, bespeaking most plainly an intelligent, wealthy, virtuous and consequently happy population, to see all these things as they are exhibited along the road we traveled cannot fail, it seems to us, to produce the highest anticipations of the importance of our county and at the same time make us proud of our neighborhood and neighbors. Never did the country look more beautiful and never more hopeful of a rich harvest than now, and no where we venture to say, do such prospects always appear more flattering than in the towns we have spoken of. The consequence is, that these towns are well filled with enterprising citizens, almost every man of whom has laid up for himself a competency, if not riches, from the results of his labor, followed by a high degree of intelligence and independence. This is manifest wherever you go among them, or in whatever phase you view them. Every thing exhibits it. Their neat and commodious not to say numerous school houses and meeting houses, their well finished roads, handsome and substantial fences, neat and frugal dwellings and large well filled barns all tell a fruitful story of the means which well directed labor and industrious frugal habits have produced. But we can not stop to particularize and our engagements demand our quick return. In spite of the rain which awoke us at an early hour we were obliged to return after a single night's absence. The fall of rain made the view only the more agreeable as it seemed to add new life to nature and by cooling the heated atmosphere, rendered our ride the more comfortable.

So we are now back again to the dark & gloomy walls and paraphernalia of the office which you have chosen for your permanent resting place.—Had you a little more of real life we should from our heart pity you, but as you are after all but a piece of inanimate matter, enlivened only occasionally by apostrophic appeals, you are, perhaps, after all, the most proper being to inhabit the very place you do. We pity, however, any body who is obliged to keep your company so closely as never to enjoy the scenes of the country. And now, old chair, as our appointed time has expired, and your old occupant has, or is about to return, and thus put an end to our further acquaintance, we bid you good bye with a hearty good will, hoping that you will continue to inculcate correct principles and good politics, always acknowledging merit, wherever found, and reproving vice and immorality with severest censures, even though they be found in your own family or among your own friends. Keep a good look out for your political opponents that they gain no unfair advantage of you; but at the same time, remember, in all you do and say, that politics afford no exception to the general operation of the golden rule. The trust imposed in us has been performed as well as our professional engagements would admit, and if we have committed any error or said any thing amiss, we know your kind patrons will excuse all, as errors of the head and not of the heart.

Repeal Meeting.

It will be seen by reference to the notice in another column, that two gentlemen, distinguished for their labors in the cause of Irish repeal, Messrs. W. J. Walsh and J. C. Tucker, Esqrs., will address the Repealers of Bangor tomorrow evening at the City Hall. We advise all our citizens who wish to understand the true merits of the subject, and to listen to some specimens of genuine Irish eloquence, to avail themselves of this opportunity.

Errata.

The absence of the Editor made it necessary for yesterday's paper to be put to press without being "proved" by him. Several errors in the type were the consequence, one only of which we shall correct. In the article headed, "Prof. Bush," instead of "a more interior and public meaning than that of the latter," read "a more interior and fuller meaning than that of the latter."

The interior of the late Tremont theatre, says the Boston Transcript, has been cleared of all "things theatrical"—boxes, bars, benches, stage, wings, flats, flies, &c., &c., and now is nothing more nor less than a large empty room. The Tremont will be the darkest church in Boston—darker than the "Dark Day."

The way the Democrats have of "whipping in" disaffected members to the support of regular nominations is sometimes quite amusing.—The last we have seen is the one in which they "comit over" the present incumbent of the Gubernatorial office, in whose favor it is well known a large body of the party were inclined. At a caucus held at Augusta, a Committee was appointed for the purpose, who have addressed a letter to Mr. Kavenagh, reminding him in a side-ways manner, that the support of regular nominations always has been, and now is an essential article of the democratic faith, and that no departure from it can be forgiven to any one who shall hereafter claim to act in violation of it, and asking of him "an expression of his feelings in relation to the ensuing gubernatorial election." The Governor of course, finding himself thus closely cornered, and having "it put to him," as the phrase is, so strongly, begs for quarter at once and says

"Having ever since I gave my first political vote, adhered to, and given my humble support to all regular nominations of the Democratic party, it would be great inconsistency, on my part, to encourage, even if I were disposed so to do in the present instance, any proceedings that would conflict with the principle by which I have always been governed."

The deed thus done, all true Kavenagh men find themselves at once by a grand stroke of policy, all tied to the Anderson car. We pity the poor fellows but submit they must. The decree has gone forth, and the chief has submitted and all the lesser officers and soldiers must again enlist and consent to train under their old Captains.

The Union St. Sabbath School celebration which was to be held this afternoon, is postponed until next week, on account of the weather.

The Trade with Carthage.

The Madisonian of Tuesday contains the following notice, issued by the State department on the 8th instant:—

"Information has been received at this department from Ramon Leon Sanchez, Esq., United States consul at Carthage, New Grenada, that, by a law of the congress of New Grenada, bearing date the 24th of April last, sanctioned by the Executive on the first of May last, granting certain exemptions to the city of Carthage, it is provided that from the 1st day of September, 1843, all the wheat-flour imported for the express consumption of the city shall be free of importation and alcabala duty, which is equivalent to (\$4.84) four dollars and eighty-four cents per barrel less than that article pays at present, which is \$5.20 per barrel.

The same law provides that all vessels, foreign and national, coming direct to the port of Carthage after the said 1st of September, 1843, and for the same period above stated, shall be exempted from paying tonnage duty, entry, and anchorage. All other port charges will be exacted as heretofore."

A Perpetual Furlough.

It was announced under the navy head of our last number, says the Army and Navy Chronicle, that an officer had been placed on perpetual furlough, and removed out of the line of promotion. Such a case is unprecedented in the navy, and is in open violation of the law. A perpetual exemption from all military duty, with an annuity of \$600! and for what? Because the officer proved himself unequal to the trust reposed in him. Is not this a reward to crime, an incentive to vice, a tempting to betray?

The walls of the Capitol at Washington are being cut and tunneled in all directions for the purpose of ventilation. Brickbats and plaster, to say nothing about dust and rubbish of all descriptions, fill the various rooms.—Georgetown Advocate.

NOTICE.

THE Rev. Mr. DUNBAR, of New York, is expected to give a Lecture at the Baptist Church, on Harlow street, on THURSDAY EVENING next, at half past seven o'clock.

He will also preach at the same place on SUNDAY following, August 16.

REPEAL MEETING.

THERE will be a GRAND RALLY of the Repealers of Bangor at the City Hall on THURSDAY EVENING, August 17, on which occasion W. J. WALSH, Esq., editor of the Boston Pilot, and J. C. TUCKER, Esq., Vice President of the Boston Repeal Association, two of the most ardent and distinguished Repeal Agitators in the country, will be present and address the meeting.

Per Order.
Bangor, August 15, 1843.

WASHINGTON NOTICE.

MESSRS. BOOTHE, STEVENS and FOWLER will Lecture on TEMPERANCE at the following places, viz:—
At FRANKFORT, Thursday evening, 17th, at half past 7.
At BANGOR, Friday evening, 18th, at 7½ o'clock, August 10, 1843.

MARRIED.

In this city on Sabbath evening, by Rev. Mr. Pomroy, Mr. Charles W. Wilder, of Dover, to Miss Mary McDougal.

DIED.

In this city, 15th inst. Eliot Ann, youngest child of Thomas W. and Josephine Baldwin, aged 2 years.
In Brewer Village on the 30th ult. of consumption of the lungs, Charles Edward, only child of Christopher and Sarah June Smith, aged 5 years and 2 months.
In Lubec, 5th inst. John Balch, Esq., in the 76th year of his age, a native of Barrington, N. H.
In Trinity, Me., no date, of consumption, Captain Thomas, of brig Rover.
On board brig Relief, of Cherryfield, at Mayaguez, W. Indies, on 1st July, Capt. Leonard Strout, master of said brig, after a short illness from the fever prevalent in that region. For kindness and good feelings towards his fellow men, none possessed a greater share: to the poor he was always ready to lend an assisting hand, and to the unfortunate of his own calling, he never refused any assistance which lay in his power to bestow. All who knew him, knew him but to love and respect him for his generous disposition, and for the many manly virtues which have marked his course through life. By his death the unfortunate lose an ardent friend, the community a worthy citizen, and an affected wife and family a most generous and kind protector.
On board brig Growler, of Thomaston, on the passage from New Orleans to New York, Thomas Hunt, of Quincy, Ms., and James Keef, of Thomaston, seaman.

By the Last Mails.

First gun from Tennessee.

The returns so far as received are encouraging though too few to enable us to form any definite opinion as to the general result. The returns received show a great gain for Jones since 1841, so that his reelection seems to be quite a matter of certainty. The result so far as heard shows a gain for the whigs of 51 in Davidson—62 in Williamson—159 in Robertson—174 in Wilson—81 in Bedford—21 in Maury, (Polks own County)—56 in Hickman—2 in Dickson. In Sumner loco gain of 47—Rutherford 16—Lawrence 12.

The election to Congress of Peyton (whig) Cave Johnson (loco) and D. W. Dickinson (whig) is ascertained. In the Legislature the gain of one whig is known.

North Carolina.

Returns from this State show nothing more definite than already published. The third district is still doubtful, though Mitchell, whig, is probably elected.

A severe thunder storm occurred in Portland and vicinity on Friday evening. A small house on Mount Joy was struck and some damage done.—The lightning also struck in one or two other places in the city. In Hollis a man whose name is not known was killed during the same storm. In Cumberland a barn was struck and torn entirely to pieces.

Fire in Portland.

On the outside of a letter received last evening at our office, is the following endorsement: "11 o'clock, Aug. 14th. The stone building on Fore street, recently occupied by the Bethel, is on fire." No further particulars are received.

Washington Intelligence.

We learn with regret that the Secretary of the Treasury is confined to his house by a severe attack of Cholera Morbus.

The Wilmington (N. C.) Chronicle states that the brig Aurora, which arrived at that place last week from Cienfuegos, lost four different captains in succession during the voyage, by death.

It is stated in the Fall River Monitor that already there are about one hundred buildings of different sizes in progress in that town, on the burnt district,—some nearly finished.

The President of the United States was expected to leave Old Point Va. for Washington, on Friday morning last.

Phoenix Bank Trials.

The evidence on the part of the government closed on Saturday morning. Judge Allen being called upon, then decided the question presented on the first day of the trial, on the motion of Mr. Dexter, that the County Jury elect, on which count of the indictment they were to proceed, should be made, and the attorney then elected to proceed on the first count and entered a *not. pros.* as to all the other counts.

The evidence on the part of the government being closed, Mr. Dexter commenced his argument in defence. The papers speak of the argument as a very able as well as pathetic performance. Mr. Wells then followed him in a discussion of some questions of law arising under the law of embezzlement, and Mr. Choate followed him in a few remarks. After he had proceeded a while, the court adjourned to Monday.

Naval.

A large steamer steering E. S. E. was passed 1st instant, latitude 36 35, longitude 74, which is supposed to have been the Missouri from New York for the Mediterranean.

Mr. Cushing is on board this vessel on his way to China.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs, Messrs Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co Bangor; Hon J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt R. Fittz, Dedham; John Black and John M. Hale, Esqrs Ellsworth; Messrs. A. Campbell & Co Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs HINCKLEY & EGERY and FRANKLIN MUZZY & Co in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

MANUFACTURERS OF TARPAU- LIN HATS, OIL CLOTHING, CAPS &c.

East End of Kenduskeag Bridge, Bangor.

BY long experience and unremitting attention we have brought the manufacture of Tarpau- lin Hats to the highest state of perfection. We are enabled by using the best materials in our new method to give a richness, evenness, strength and softness of texture, not liable to crack or peel and perfectly impervious to moisture either from with- out or within. These qualities have merited and received the confidence and approbation of our cus- tomers; and in order that the genuine article may be known in the market and to prevent all imposi- tions, we respectfully inform the public that a dis- tinguishing label will be placed upon the inside tip of each Hat of our manufacture.

GLAZED AND CLOTH CAPS of every vari-ety manufactured of the best materials and of fash- ionable forms.

OIL CLOTHING of all the usual varieties made in a substantial manner, and no labor spared to make the garments efficient and useful.

READY MADE CLOTHING suited to the differ-ent seasons.
